Re: Public Notice of Extended Public Comment Period and Corrected Draft Air Permit
Santee Cooper (Pee Dee Generating Station)
Pamplico, Florence County, South Carolina
Draft PSD Construction Permit No. 1040-0113-CA.1
Public Notice #07-095-PSD-N-H-CE

Please be advised that the South Carolina Department of Health and Environmental Control (DHEC), Bureau of Air Quality, has extended the public comment period for the draft Prevention of Significant Deterioration (PSD) air quality construction permit and Preliminary Determination for the proposed Santee Cooper Pee Dee power plant near Kingsburg, South Carolina. These documents will remain on public notice until Tuesday, January 22, 2008.

The public comment period extension is being granted because the draft permit that was placed on public notice and made available for public comment contained incorrect mass emission limits (tons per day). The mass emission limits are more stringent and lower in the correct version of the draft permit. This draft permit has not yet been approved and is open to comment from the public.

A copy of Public Notice #07-095-PSD-N-H-CE announcing the public comment period extension and the corrected version of the draft permit is enclosed. This notice has been published in the *Florence Morning News*, *The Sun News*, and *The State* newspapers on Friday, December 7, 2007. It may also be viewed on DHEC's website at any time during the public comment period. The public comment period will officially close on Tuesday, January 22, 2008. In an effort to provide the public with convenient access to the corrected draft permit and preliminary documents, the permit application, and other relevant correspondence, this information has been posted on DHEC's website and can be viewed at: <http://www.scdhec.gov/environment/baq/SanteeCooper.aspx>. The enclosed public notice provides instructions for reviewing these documents and how to submit written comments.

We would like to thank you for your comments thus far and interest in this proposed project. Please bring this notice to the attention of others you know who may be interested in Santee Cooper's proposed Pee Dee Generating Station.
